

Traffic cone clip sign

Our unique cone mounted roadworks signs couldn't be easier to install. Slotting into the top of the cone like a paperclip, they lock firmly in place, able to withstand extreme weather conditions.

Completely customisable, we can create signage to display your own messages as well as national Highway Code compliant road signs; a versatile solution which can be used on all job sites.

Designed to improve road safety by reinforcing warnings and directional signage alongside traditional road signs, our cone clips are made to work around you.

Product Specs:

- Surface: 335 x 275 mm
- Printing Area: 335 x 195 mm
- Weight: 0.227 kg
- 100% recyclable with no waste materials
